

***ELEVATING CONNECTIVITY &
EMPOWERING POSSIBILITIES***

About Rapid

Established in 2008, Rapid Telecom is a Bahraini licensed telecommunications and security services company, based in the Kingdom of Bahrain. Rapid Telecom recognized for our state-of-the-art infrastructure and dedicated account managers, as well as our expertise in providing cost-effective solutions individually designed to meet our clients' needs.

Our Capabilities

Telecommunication and Internet Connectivity

Rapid Telecom has built a network over fiber and high-speed microwave connectivity, which provides resilience, flexibility, diversity, and redundancy to the local market covering most areas and segments.

ICT (Information and Communication Technology)

We specialize in the high-end technology implementation at clients' sites or the implementation of new technology according to the clients' requirements.

Cybersecurity

Rapid Security Team (RST) will develop a comprehensive strategy and roadmap planning of your cybersecurity needs.

Core Values...

Rapid Telecom is built around its customers with a foundation based on innovation, responsiveness, and trust. We understand the challenges faced by businesses and individuals, and we are committed to improve them by offering the most advanced technological products and breakthrough solutions.

Service

We understand and determine what our customers want and service them with the highest standard of workmanship and professionalism.

Relationship

We believe in maintaining long-lasting relationships and fairness in all our dealings with our stakeholders.

People-Power

We value and encourage each one of our team member and motivate them towards further development.

Trust

We firmly believe trust and respect are essential for teamwork and successful project management.

Integrity

We are committed to demonstrating all aspects of our work with utmost integrity.

Our Services

Telecommunication and Internet Connectivity

Dedicated Internet

Rapid Telecom provides dedicated Internet connections with speeds reaching up to 10 Gbps. We offer flexible options for last-mile connectivity, including fiber-optic and wireless connectivity, and a dedicated 24x7 support team available to answer any technical queries.

Virtual Private Network (VPN) Services

Rapid Telecom offers reliable, cost-effective VPN solutions. Our VPN services guarantee secure connectivity through our networks.

Wireless Broadband

Rapid Telecom offers a diverse range of thoughtfully crafted packages tailored to suit your business requirements with Instant connectivity with plug-and-play setup. Our packages are ideal for activities such as email communication, web browsing, downloading large files, web video conferencing, and more.

Voice Services (VoIP & PBX)

Rapid Telecom provides cost-effective voice solutions for SME and large enterprise customers. Our voice services are based on state of the art enterprise IMS solutions.

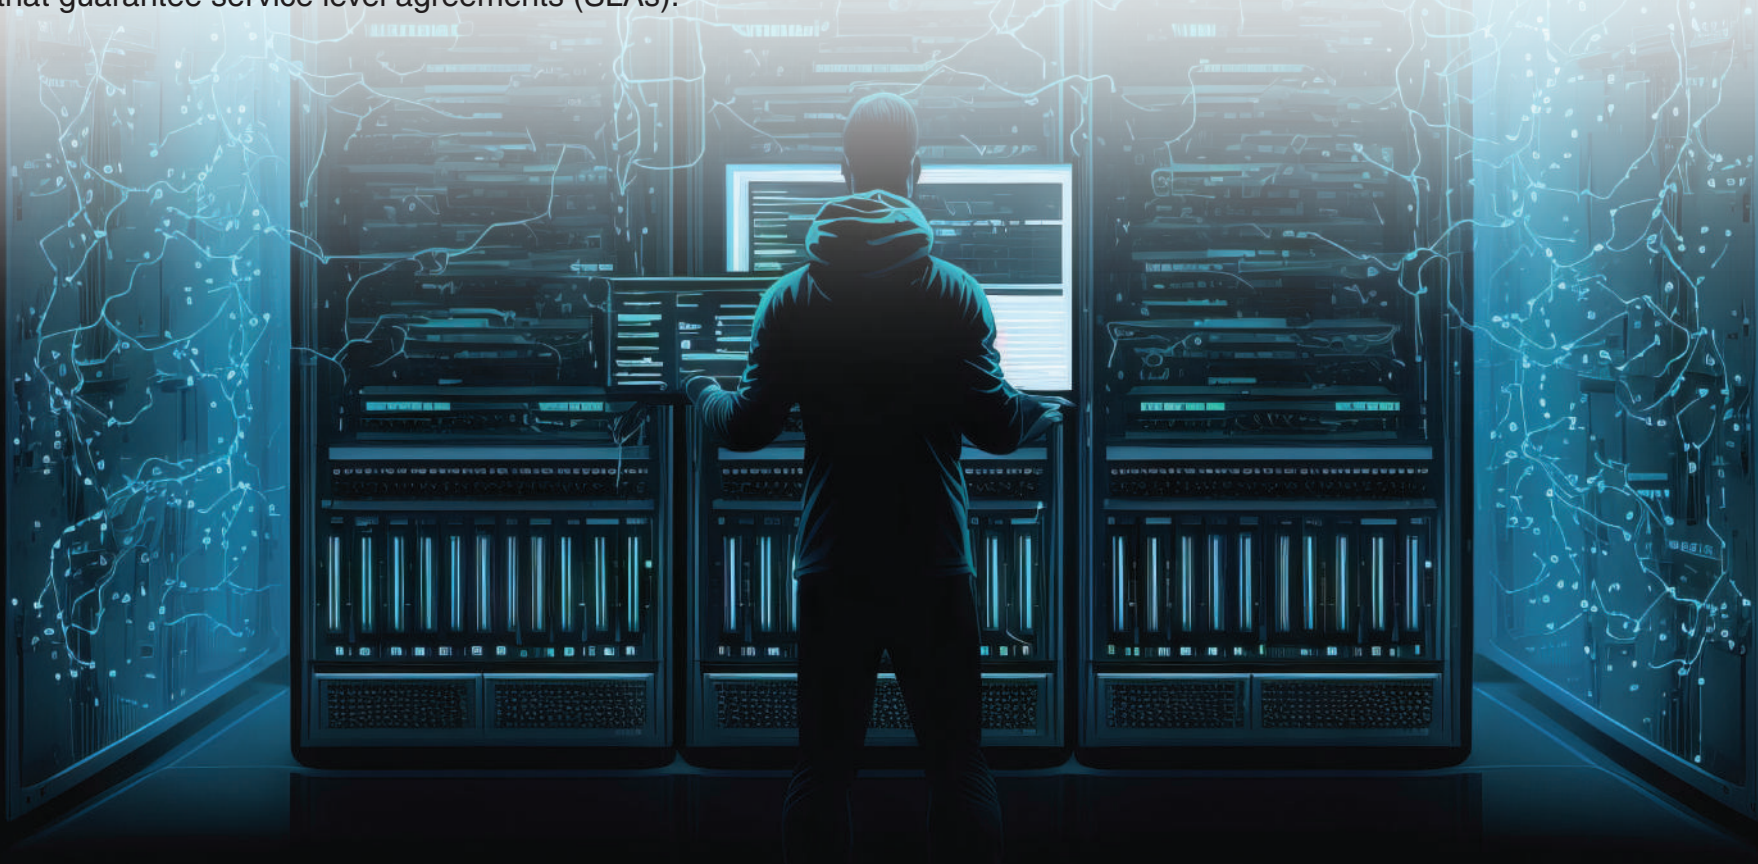

MPLS

Rapid Telecom's Multi-Protocol Label Switching (MPLS) is a cost-effective solution that gives businesses access to high quality L2(point-to-point) and L3 (point-to-multipoint) services to enable the development of scalable and secure networks that guarantee service level agreements (SLAs).

Managed Security Services

Rapid Telecom's end-to-end management and monitoring of network infrastructure, including routers, switches, firewalls, and wireless access points, to ensure optimal performance, security, and uptime.

24X7 SUPPORT

RAPID CARE

We genuinely care about each and every client. Therefore, we created RAPID CARE to serve as a 24x7 technical support and customer service tool. At RAPID CARE, we offer our clients easy and direct access to our network operations centre (NOC) and business call centre.

Our Services

(Information and Communication Technology)

ACCESS CONTROL SYSTEM

BRAND:-WATCHNET/DAHUA/ZKTECO/ROC

ROC
RAKE ONE COMPUTING

WatchNET
SECURITY SOLUTIONS

ahua
TECHNOLOGY

ZKTeco

Wide range of applications - from software solutions with integrated video to hardware like smart card readers and door controllers, facial recognition options.

CLOSED-CIRCUIT TELEVISION (CCTV)

BRAND:-DAHUA/WATCHNET/HIKVISION

WatchNET
SECURITY SOLUTIONS

ahua
TECHNOLOGY

HIKVISION

Our solutions allow undisturbed, real-time monitoring of the facility and processes, remote access control and integration.

BARRIERS

BRAND:-BFT/CAME

Automated traffic barriers, rising bollards, pedestrian sliding doors and car park management system.

BFT

CAME

IPTV/SMATV

BRAND:-ALCAD/TRIAX

Capture TV/video content directly from any source and manage its delivery, as channels or within digital signage screens, to any connected device.

TRIAX

ALCAD

INTRUSION DETECTION

BRAND:-COMELIT

Hard-wired and wireless systems to meet residential, commercial and high security applications; supported by detectors, components and accessories.

COMELIT

INTERCOM

BRAND:-ALCAD/COMMAX

The audio and video entry security phones are extremely convenient for verification and identification of persons requesting entry. This can range from a single door audio unit to multiple doors video systems.

ALCAD

COMMAX

AUDIO VISUAL SYSTEM

BRAND:-ITC

Sophisticated AV systems for conference halls, multi-purpose halls and auditoriums for government, business, entertainment, commercial and residential facilities.

PA/EVACUATION SYSTEM

BRAND:-ITC

Robust voice systems for broadcast and evacuation procedures in emergency situations. We cater to the requirements of small to large-sized facilities.

DATA CENTER SET UP

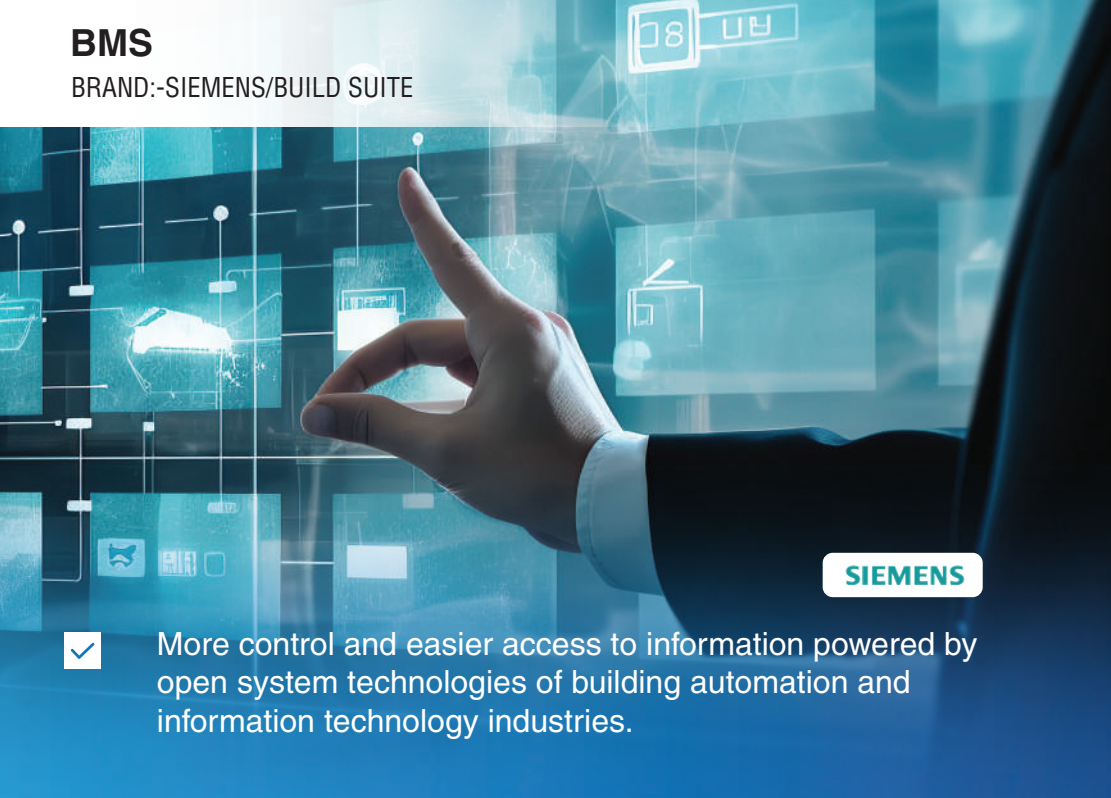

BRAND:-CISCO/OPTRONICS

We understand that choosing the right location/technology/design for your IT infrastructure is critical to growing the business.

BMS

BRAND:-SIEMENS/BUILD SUITE

SIEMENS

- ✓ More control and easier access to information powered by open system technologies of building automation and information technology industries.

GRMS

BRAND:-INTEREL/DOMOTICS

INTEREL

FOX DOMOTICS
INVENTING SMART SYSTEMS

- ✓ Our solutions make hotel staff capable to competently administer guest room energy utilisation and ensure success in providing optimal in-room experience.

HOME AUTOMATION

BRAND:-EGLU/GVS

GVS

eGlu

- ✓ Standards-based wireless solution that conveniently and affordably controls the widest range of devices, we provide you with the improved comfort, security and convenience you deserve.

NURSE CALL

BRAND:-NETSOL

Focusing on patient safety, streamlining work flow, improving patient flow, clinical communications and patient care experience in facilities.

STRUCTURED CABLING

BRAND:-OPTRONICS

End-to-end structural cabling solution integrating voice, data, video and various management systems of a building.

PARKING MANAGEMENT

BRAND:-ZKTECO

Reduce costs, street congestion and enhance convenience with smart parking integration, violation processing and parking availability information system.

Our Services

Cyber security

INFRASTRUCTURE NETWORK & SECURITY

Network Security: Designing, implementing, and managing network security controls, such as firewalls, Intrusion detection and prevention systems (IDS/IPS), virtual private networks (VPNs), and network segmentation.

Endpoint Security: Implementing and managing security measures on endpoints (devices), including anti-malware anti-ransomware software, EDR-NDR-XDR, encryption, patch management, and device control.

DATA SECURITY AND ENCRYPTION

Data Security: Implementing data protection mechanisms, data classification, encryption, access controls, and data loss prevention (DLP) solutions to safeguard sensitive information.

- ✓ **Vulnerability Assessment and Penetration Testing (VAPT):** Identifying weaknesses and vulnerabilities in systems, networks, and applications through assessments and conducting simulated attacks to test your security.
- ✓ **Security Awareness and Training:** Conducting security awareness programs and training sessions to educate employees about best practices, security policies, and potential threats to promote a security-conscious culture.
- ✓ **Identity and Access Management (IAM):** Managing user identities, access privileges, and authentication mechanisms (e.g., multi-factor authentication) to ensure appropriate access controls and minimize the risk of unauthorized access.
- ✓ **Security Risk Assessment and Management:** Identifying and assessing security risks, conducting risk analysis, and developing risk mitigation strategies to protect critical assets and minimize potential damages.
- ✓ **Application & Web Filtering Security:** Application & web filtering security services to protect your business from evolving threats and unauthorized access. Our cutting-edge solutions empower you to control and monitor application usage and web access, safeguarding your sensitive data and ensuring compliance with regulatory requirements.

Our Projects

PROJECTS - EXCLUSIVE

- ✓ 900,000 m2 Industrial / Logistics and Warehousing Park
- ✓ 250,000 m2 Business & Commercial Park 420,000 m2 Service Areas

Telecommunications :

Voice, Data, Connectivity, Global Crossings, IPLC , Local Loops

BIW BUSINESS PARK

- ✓ 60,499 m2 Total Area
- ✓ Commercial Offices, Retail Spaces, "Commercial Clusters"

Telecommunications :

Voice, Data, Connectivity, Global Crossings, IPLC , Local Loops

BIW LABOR ACCOMMODATION FACILITY

- ✓ 120,000 m2 Total Area
- ✓ Safe, Secure, and Hygienic living conditions
- ✓ Accommodation for more than 20,000 to 40,000 Laborers

Telecommunications :

Voice, Data, Connectivity, Global Crossings, IPLC , Local Loops

HOSPITALITY & MINISTRY PROJECTS

- ✓ **Telecommunications** :Voice, Data, Connectivity, Global Crossings, IPLC , Local Loops
- ✓ **ICT Solutions** : Networking, Structured Cabling, CCTV, Access Control
